htc

HTC 5G Hub

Specifications

DISPLAY: 5,0 inch, capacitive TFT touch screen, HD (720 x 1280 pixels)
DIMENSIONS[1, 2]**:** 129 x 100 x 43 mm
WEIGHT[2]**:** 340 g

PLATFORM[3]
Android™ 9.0

PROCESSOR
Qualcomm® Snapdragon™ 855 Octa-Core, with Snapdragon™ X50 5G Modem

MEMORY[4]
- **RAM:** 4 GB DDR4x
- **ROM:** 32 GB UFS, expandable up to 2TB
- Flex memory

MULTIMEDIA

- 90 dB Stereo speakers
- Google Assistant™

AUDIO
SUPPORTED FORMATS
Playback:.3gp, .mp4, .m4a, .aac, .ts, .flac, .mp3, .mid, .ogg, .mkv, .wav, .amr

VIDEO
SUPPORTED VIDEO FORMATs
Playback: .3gp, .mp4, .ts, .webm, .mkv

SENSORS
Motion G-Sensor

CONNECTIVITY[5]
- Bluetooth™ 5.0
- Wi-Fi
- 802.11 a/b/g/n/ac/ac/ad
- Up to 20 Wi-Fi connections

BATTERY[6]
- Capacity: 7.660 mAh
- Battery management

CHARGE
- DC charging (12 V/2,5 A)
- USB-C (QC 3.0 and PD 9 V/2 A)

NETWORK[7]

Supports up to 2,63 Gbps downlink. Uplink 287 Mbps

4G LTE™ (Europe)
- FDD: bands B1, B3, B7, B8, B32, B38, B40

5G NR: band n78

4G LTE™ (USA)
- FDD: bands 2, 3, 4, 5, 7, 8, 12, 13, 25, 26, 66, 71
- TDD: band 41

5G NR: band n78

4G LTE™ (Australia)
- FDD: bands 1, 2, 3, 4, 5, 7, 8, 12, 20, 28, 66
- TDD: bands 38, 41

5G NR: band n41

Up to 8 times faster than a typical 4G LTE Network

SIM
- Nano SIM

Hints:

1. The thickness was measured at the edge of the device. Therefore, the thickness may differ at different points of the device.
2. All dimensions may vary slightly depending on the manufacturing tolerance.
3. The platform may be different after the software update.
4. The available space is lower due to the software. The available space may change due to software updates and the use of apps. The expansion memory is limited to the available size of the microSD card.
5. Enables 20 connections via the Wi-Fi hotspot. 802.11 ad Hotspot has a maximum support of 4 connections.
6. Battery life depends on usage and settings. Usage, environmental conditions, network connectivity, and other factors can affect the actual result.
7. Network bands and actual upload / download speeds vary depending on the mobile operator and location. 5G NR and 4G LTE are only available in selected countries and locations. Performance data for typical LTE network performance is based on the HTC internal survey and 3GPP definition.

The specifications may differ after the software update and are subject to change without notice.
